

An aerial photograph of a rugged, arid landscape. A dirt road winds through the terrain, with a white truck driving on it. In the middle ground, there is a cluster of several buildings, some appearing to be under construction or in ruins. The surrounding hills are rocky and sparsely vegetated with small green shrubs and trees. The sky is not visible, as the terrain fills the frame.

**IT'S EASY TO SPOT THE THREAT WHEN YOU  
CONTROL THE WORLD'S MOST ADVANCED  
AUTONOMOUS UNMANNED AIRCRAFT SYSTEMS.  
THEY DO IT FOR YOU.**

Through advancements in intelligent autonomy, BAE Systems can deliver the capability of a pilot, navigator, mission co-ordinator and intelligence officer all in one. With the ability to understand and interact with their environment, undertake complex missions and spot hidden threats, our unmanned aircraft systems give you the enhanced intelligence you need to get the job done. Just another way BAE Systems continues to deliver a real advantage.

**BAE SYSTEMS**

**REAL INNOVATION. REAL ADVANTAGE.**
