

# UNMANNED OR MANNED, MOBIUS™ CHANGES THE RULES

## Next Generation Performance Today

Mobius combines Medium Altitude Long Endurance (MALE) ISR capability with Strike Fighter-like aerodynamic performance. Fully autonomous or optionally piloted, Mobius is open architected and interoperable with current networks, supporting advanced internal and external payloads and stores. FAA Special Airworthiness Certificated enabling both critical test and operational flexibility. Go to [www.L-3com.com/geneva](http://www.L-3com.com/geneva) to learn more.
