## Expand Your Horizons with IAI-MALAT's HERON MALE & NRUAV VTOL - Your Most Versatile UAS Solutions at Sea

Backed by over 450,000 operational UAS flight hours, our family of maritime UAS offers real-time detection and identification of even the smallest moving targets at sea.

- Unique flexibility in choice of fixed/rotary wing platforms utilizing a common control station and sensors
- Multiple operational configurations with a variety of multi-sensor suites
- Payloads: MPR, SAR, EO/IR, ESM, COMINT
- Day/Night adverse weather operation
